SCHOOL POPULATION SHOWS BIG INCREASE

The school census of Tonopah shows there are 705 pupils between the ages of 6 and 18 years. The census was completed yesterday by Walter W. Anderson, superintendent of schools, and shows an increase of about 70 over that of the preceding years.

BELMONT COUPLE PICK ORE NOW ARE UNITED IN MARRIAGE TODAY GROWS RICHER DAY TO DAY

Lee Brotherton Leads to Altar Miss Pauline Dunn, Popular School Teacher

Lee Brotherton and Miss Pauline Dunn, popular young people of Belmont, were united in marriage this afternoon at 2 o'clock in the Catholic parsonage, the Rev. Father Edward Noonan officiating. The couple were attended by Mr. and Mrs. Roy Brown, the latter being a sister of the groom. There was also present at the ceremony, Miss Alice Brotherton, sister of the groom.

Mrs. Brotherton, the bride, is the daughter of Mr. and Mrs. John H. Dunn, long time residents of Goldfield, but now living in Reno. She was practically reared in Goldfield, and following her graduation from the high school she passed the teachers' examination, and for the last two years has been teacher of the Belmont school. She is a charming and accomplished young woman and counts her friends by the number of her acquaintances.

The groom is a native of New Mexico, and was born and reared in Belmont. He is a young man of sterling integrity and since reaching manhood has been following mining.

He has just accepted a position with the government forest service, and for the present will make his headquarters at Belmont. He is a son of Frank Brotherton, well known resident of Belmont.

The young couple have delayed their wedding journey for the present, owing to the press of duties of the groom in his new position, but they expect to spend several weeks on the coast later in the year.

Mr. and Mrs. Brotherton enter upon their married life carrying the best wishes of all their friends and acquaintances throughout southern Nevada.

BUSINESS DEAL INVOLVES VAST SUM OF MONEY

E. E. Palmer, Beatty Business Man, Sells Entire Holdings in That Section

E. E. Palmer, well known old time Beatty merchant, who conducts one of the largest mercantile establishments in southern Nevada, if not the largest, has disposed of his place of business, his residence, ranch property and mining interests to a wealthy man from Alaska, and is making preparations to remove to southern California where he will engage in business. The consideration is given as close to \$80,000. Mr. Palmer has long been a resident of Beatty, and has many friends throughout this section of the state who will learn with regret of his decision to leave here, but all wish him success in his new field of human endeavor.

PHOENIX ANNEX BADLY DAMAGED BY BAD BLAZE

Damage Estimated at Two Hundred Fifty Dollars With No Insurance of Any Kind

A two-story building in the rear of the Phoenix rooms was badly damaged by fire last night at 9:15 o'clock. The blaze is supposed to have been started as the result of a roomer leaving a lighted cigarette in the room he was occupying, the roof being consumed and the downstairs being damaged by water. The room was rented at 6 o'clock by a man giving his name as Jones, who had stopped there two nights previous. Mrs. Walter W. Booth, Jr., who leases the premises, said the fellow paid for the room and that she did not see him after 5 o'clock, but it is surmised that he left a cigarette burning and departed from the premises.

The building is owned by Leon Cohen who places his loss at \$250 with no insurance. Had a wind been blowing it is doubtful if adjoining property could have been saved, as most of the buildings in that locality are frame structures.

The Bonanza is the best advertising medium in southern Nevada. Reason: Every line in the paper is read by a criticizing public.

Heavy Earning is Resulting as Ore Shipments are Continued to Belmont Mill

The last three shipments from the Silver Pick lease at Goldfield assayed \$50 per ton. The third of these shipments, sent to the Belmont mill a few days ago, has not yet been settled for, but it is expected the settlement will be at about \$60. This ore is being sent to the mill as broken, with little sorting, and because of the places it has come from it has been found impossible to keep the values below \$40, the most desirable grade because of freight, treatment and royalty charges.

The two stopes from the intermediate level have been connected and the northward rake of the ore shoot and the way it flattens and goes under the drift on the third level are now evident more than ever before. The drift going north on the intermediate is again being driven, and the face is now 50 feet from where it started at the north wall of the main stope. The face of this drift continues in ore and material for shipment is coming from it. Sinking from the north drift has been discontinued, and dip of the vein and rake of the ore have been determined, and the work on the fourth level to cut the shoot has been started.

Three machine drills are being used, two in ore on the intermediate level, and one on the fourth level. Some of the ore for shipment is being broken in lengthening to the south the main stope, which also is gradually being carried up toward the third level. A crosscut from the stope is to be driven under the level to determine just what are the conditions at this point.

The last three shipments from the lease, 330 tons of ore of a gross value of close to \$20,000, and the fact that more than 400 tons was broken during May, show the lessee company to be making money fast, as more than half of the gross value of the ore is going into the Silver Pick treasury.

IMPORTANT RULING IN MINING TRIAL

Judge Walsh in the district court of Esmeralda county has ruled in the action of Phillips and others against Tune and others, which is a suit filed by the officers and stockholders of the Marinette Mining and Milling company, of Marinette, Wis., against R. L. Tune, trustee, sustaining the plaintiff's complaint on all equitable grounds. Judge Walsh held that the second and probably the third assessments amounting to several thousand dollars levied by Tune on the stockholders be returned; that the findings of Harry Ruhl, referee, in the sum of \$3640, be sustained; that the trust agreement entered into by the trustees of the company and Tune be enforced; that certain stocks sold under assessment be returned to the company; that the Speculator claim be decided back to the company; that the plaintiffs have their costs and disbursements; that the referee's fee of \$300 be allowed; and that the injunction against Tune be reinstated.

This suit had been pending for more than 2½ years and involved property in the Klondike district upon which nearly \$100,000 has been expended in development and other ways.

AMUSEMENTS

PEARL WHITE AT THE BUTLER TODAY

Pearl White, who is called the best known film actress in the world, will be seen in her latest picture, "Any Wife" at the Butler theater today. It deals with the case of a woman possessed of a devoted husband and a loving child, and surrounded by every material comfort; yet, who surrenders to a spirit of discontent because she feels her life is too "humdrum," lacking in social spice. This spirit ever increasing, leads her into an unfortunate situation as a result of which her husband casts her off, through she is really innocent. Despite this apparent tragedy the story has a singularly happy ending, which comes as an absolute surprise, and carries a potent appeal for every woman, whether wife or maid, and it should appeal strongly to every husband.

"Pathe Review" will also be on today's bill.

Tomorrow, a double bill; Buster Keaton in a two-reel comedy, "The High Sign," and "Fine Feathers," a six-reel drama with an all-star cast.

INCOMING TRAIN IS DELAYED BY TRAFFIC

The southbound train from Reno was an hour and a half late this morning, due to the heavy tonnage coming out of Mina, and the extra amount of switching that had to be performed at Millers. It is evident that the traffic during the summer months will show a substantial increase from week to week in view of the increased activity in a mining way that is now taking place at Tonopah and the surrounding districts.

RADIO DANCE.

A radio dance will be given Wednesday evening at Elks hall, and all Elks and their friends are invited. There will be no admission. Receiving instruments and amplifiers have been secured and the music will be secured from cutting with Ronca Veir's orchestra at San Francisco. Light refreshments will be served. By order Social Committee. J52t.
